MRS. APPLEYARD CROSSES DIVIDE

Carbon citizens in general mourn
the passing this week of Mrs. Geo.
Appleyard, who died on Tuesday
evening after a week's illness with
pneumonia.

The late Mrs. Appleyard was in
her 43rd year and has been a resi-
dent of the Carbon district for a
number of years. She leaves to
mourn her loss a husband and four
small sons, to whom the sympathy
of the entire town and district goes
out in their hour of bereavement.

Funeral services will be held
from the Catholic church on Sun-
day afternoon at 2.30 p.m.

Swalwell

Congratulations to Mr. and Mrs.
D. Gibson on the birth of a daughter.

M. Dougherty has returned to
Swalwell, Mrs. Dougherty and the
baby still remaining in Drumheller.

The telephone exchange is now
established in its new quarters and
is under the charge of Mr. and
Mrs. Hewson.

Messrs. F. Tricker (skip), W.
Robertson, O. Meyers and W. Ha-
milton visited Acme in an endeavor
to lift the Tolton Trophy, the re-
sult being, defenders 27, challeng-
ers 9.

The dance put on by the local
sheiks in the Tricker hall proved
to be a great success, every body
saying what a splendid time they
had. The music was supplied by
a 5-piece orchestra from Sunny-
slope.

There was a good attendance at
the service held last Sunday after-
noon in the Union church, the
preacher being Isaac Mastre of
Grafton, N.D.

Mr. and Mrs. W. R. Gore were
visitors to Calgary, having gone
down to see their daughter Louise,
who suffered a relapse and was re-
admitted to the Holy Cross hos-
pital. We are pleased to be able to
record an improvement in the pa-
tients condition.

Mr. A. S. Atkinson, the New
Hope teacher, has taken up his
abode in town at the hotel.

Country News

Miss Elsie Sailor of Drumheller
is visiting with her parents, Mr.
and Mrs. J. Sailor.

Mr. and Mrs. Jack Bertsch re-
turned last week from a visit to
Mrs. Bertsch's parents in N. Do-
kota.

John J. Neher and daughters,
Martha and Kato, are visiting with
relatives in Calgary this week.

The last report from Mrs. Fred
Ohlhauser was that she underwent
an operation Thursday and is slow-
ly improving.

Mr. J. J. Ohlhauser and Mr. J.
Forsch went to Calgary Monday
to attend the school convention.

There must be something wrong
with Buyer's sleigh for they upset
Sunday morning in the center of
E. J. Ohlhauser's yard.

Over fifty of the Carbon people
attended the dance at the Avon-
dale school last Friday evening,
Jan. 28. Two sleighs were provid-
ed for the occasion, and the dance,
as well as the sleighing, was en-
joyed by all those attending. The
music for the evening was furnish-
ed by the Barr's orchestra, Carbon.

LITTLE ITEMS OF LOCAL INTEREST

Mrs. T. R. Olive is ill with the
influenza.

M. Sember of Hesketh was a
Carbon visitor last week.

Percy Edwards left for Calgary
on Tuesday.

Two rinks, one composed of W.
Leitch, G. Tutt, C. Burnett and
D. Code, and the other of G. Mc-
Gregor, M. Skerry, A. Reid and
A. N. Other, left Wednesday to
attend the Annual Bonspiel at
Swalwell.

See S. F. Torrance for your 1927
automobile license plates.

At the annual meeting of the
Carbon Union church, held last
Wednesday evening, Jan. 26, the
reports of the various church orga-
nizations were read and adopted,
and the board of managers was el-
ected as follows: J. A. MacDon-
ald, H. A. English, Jas. Gordon,
Mrs. Jas. Ramsay, Mrs. Jas. Mc-
Leod and N. T. Gordon. J. R. E.
Coburn was elected secy-treas.

During the evening Mrs. G. W.
Malton gave a reading and Mrs.
G. G. Peters and Mrs. G. F. Mc-
Gregor sang a duet. At the con-
clusion of the meeting a dainty
lunch was served by the ladies.

A Lesson From Montreal

The recent tragic occurrence in a moving picture theatre in Montreal where, following a panic cry of "fire," a stampede ensued resulting in the blocking of all aisles and exits and the consequent death through suffocation of seventy-seven children, should lead to a most careful investigation by all Provincial, municipal, school, and other bodies into the present exact condition of all public assembly, and an examination of all ordinances, by-laws and regulations governing the management of all such places.

Apparently not one of the children who lost their lives in the Montreal disaster was burned to death, but in the ensuing panic following the cry of "fire" the exits proved inadequate. It is even possible that the exits themselves were sufficiently large and numerous, but with people standing in the aisles they became jammed.

No doubt in most municipalities throughout this western country proper and stringent by-laws and regulations have been passed prohibiting the placing of extra seats in the aisles of theatres, churches, schools and halls in order to accommodate audiences in excess of the seating capacity of such buildings. It is undoubtedly against the law in most municipalities to allow people to stand in the aisles leading to exits, or in the exits themselves. If no such regulations have been made it is criminal negligence on the part of the responsible authorities.

The important thing is, are these by-laws or regulations faithfully observed? Are municipal officials alert in seeing that they are complied with? Is prompt action taken against the management of any building who neglects to observe this very fundamental need to insure the safety of the public?

As a matter of actual fact, is it not true that these regulations in public safety are only too frequently honored in the breach rather than in observance? Readers of this article can undoubtedly recall numerous occasions when extra seats have been placed in aisles and people have been allowed to block aisles and exits at largely attended public gatherings.

If those in authority responsible for the enforcement of these regulations for safeguarding the public are negligent, it would appear to be the duty of individual members of such audiences to make vigorous protest to the management in their own interest and in the interest of their fellow-citizens.

Proper construction of buildings can be provided for and enforced; the wisest regulations can be enacted; but when disaster suddenly threatens it is well nigh impossible to prevent a certain degree of panic, and if only two or three people lose their heads at such time the effect is contagious. It is absolutely essential, therefore, that the cool-headed in the audience have a fair fighting chance to get rapid control of the situation. This it is possible for them to do, because of an ignoring of necessary precautions, conditions exist which make for panic.

In Montreal no doubt there will be not only a searching investigation, but radical changes in regulations and a tightening up in their enforcement. This, of course, is necessary and wise, but it is only another example of locking the stable door after the horse has been stolen. In all our communities it will be wise if they now take the lesson of the Montreal tragedy to heart, and provide to the full extent that it is humanly possible to do against any like happening in their midst.

Makes Long Flight

In Passenger Plane

Montreal Woman Uses Air Line From England to Cairo

To a Montreal woman, Mrs. E. E. Schopflecher, of 1901 Van Horne Avenue, has fallen the honor of being one of the first persons to make the flight in the first passenger airplane from England to Cairo.

The plane in which Mrs. Schopflecher was a passenger left Croydon air-drome on December 29 and made a successful flight over England, France and Italy, flying over Vesuvius at a height of 9,000 feet and swooping down directly over the crater which was belching smoke clouds and flames. It then passed through the Straits of Messina to Malta, then across the Mediterranean to Rhodes and descended to 369 feet across the Soudan territory between Bengiuzel and Sodan.

Mrs. Schopflecher is to visit the headquarters of the British movement in Haifa, Palestine, and will then fly to Bagdad, for a lecture tour, which will take her through India and Persia, bearing on the League of Nations Union.

"Well, Gise, it looks as if half your little ghosts are not coming."

"That doesn't hurt the eating pain, mother, does it?"

Only the men who know that he is in the wrong can afford to lose his temper.

Safety Film Invented

British Firm Has Non-Inflammable Film That Eliminates Danger of Fire

A cinema film which, it is alleged, is non-inflammable and would eliminate the danger of fire in projection rooms of moving picture theatres was tested in a well-known London theatre recently. The tests were apparently successful as the film refused to burn or emit poisonous fumes. The film is a British invention, the result of 14 years of experimenting. A factory is to be erected near London where it is hoped to produce the film in marketable quantities within six months.

Scientific Distribution

Great Britain Would Distribute Population Within the Empire

Britain does not regard its overseas settlement scheme as a means of getting rid of its unemployed population, but is rather endeavoring to develop a scientific distribution of population of all classes within the Empire. This was the statement made recently before the Montreal Women's Club by Miss Margaret Bondfield, M.P., in her official capacity as a member of the British overseas settlement committee and of the Society for the Overseas Settlement of British women.

Skeletons, believed to be those of the Vikings, were unearthed recently at Reay, Caithness, Scotland.

Deserved Name Of "Finest Man"

Philadelphia Theatrical Man Had Right Idea About Charity

A group of Philadelphians were discussing the death of Jules Mastbaum, the theatrical man. One of them was a milkman who declared that "Jules Mastbaum was the finest man that ever lived. Would you believe it his milk bill was from \$500 to \$1,200 every month for about five years?"

This called for an explanation and the milkman gave it. He said that when he began delivering milk to Mastbaum's house on his route, the great showman told him to go around and find out what families were so poor that their milk budget was a problem.

"Just look around," Mastbaum told the milkman. "You'll know which are the deserving ones and which aren't. When you have found those, just leave them as much milk as they need. The bill? Send that to me every month."

So, for four or five years, dozens of families in the poorer districts of Philadelphia have found milk on their doorsteps every morning but never a bill for it.

PEOPLE WHO NEED HEALTH BUILDING

Should Enrich Their Blood by Using Dr. Williams' Pink Pills

There are conditions of health in which no particular organ appears to be at fault, yet the patient is miserable and unable to pursue the activities of daily life with vigor and enjoyment. The remedy needed is a medicine that will benefit the whole system rather than a part. The blood reaches every part of the body and an improvement in its quality is quickly followed by an improvement in the whole system. Dr. Williams' Pink Pills make a prompt and visible improvement in the blood, and bring new health and strength to ailing people. The value of Dr. Williams' Pink Pills in cases of this kind is proved by the following statement: Mrs. W. F. Nash, R.R. No. 1, Bellamy, Ont., writing on behalf of her husband says: "For the past two summers my husband has taken Dr. Williams' Pink Pills with much success. He was in a weak condition, did not sleep well at night, tired all the time, with poor appetite. The result was he got very thin. He decided to try Dr. Williams' Pink Pills and by the time he had taken three boxes he was feeling and looking much better that it was very noticeable that the pills were all they were recommended to be. We feel very grateful and advise the use of the pills in all cases of weakness."

These pills may be had from all dealers in medicine, or by mail, post paid, at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

B.C. Tobacco

Tobacco growing is becoming a serious business proposition in British Columbia. Two hundred acres will be planted out at Keremeos, Cawston, Oliver and Osoyoos next year while the acreage at Kelowna will also be increased.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Preventable Diseases

Fifty per cent of the people of Canada die before their time, in the opinion of Dr. H. M. Speeckley, one of the leaders of Winnipeg's Health League. The most prevalent of human ailments in the dominion were the social diseases, pneumonia, cancer, influenza, diphtheria, measles, typhoid fever, scarlet fever and tuberculosis. All were preventable except pneumonia, cancer and influenza, Dr. Speeckley said.

White street lines to guide motorists cost London hundreds of pounds monthly. Smoke, fog and rain cause the paint to wear rapidly.

Corns cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

The magui, a Mexican tree, supplies from its bark a thread three times as strong as ordinary cotton.

Sneezing?—Use Minard's Liniment.

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetone-acetester of Salicylic Acid ("A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

A Modern Treasure Galleon

Spanish Liner Carries Priceless Art Exhibits Back From Philadelphia

Once again a Spanish treasure galleon sailed upon high seas, when the Spanish Royal Mail liner Manuel Arribus sailed from New York recently.

In a special compartment in her hold, safe from intrusion by wind or weather—no matter how severe—she carried art treasures valued at more than \$15,000,000. These art treasures were taken from the Royal Palace in Madrid, with special permission of the King of Spain and placed in the Spanish Pavilion at the Sesquicentennial Exposition in Philadelphia.

Included in the collection were a number of priceless Goya tapestries, whose value was not figured in the total estimate, as they are considered irreplaceable. Also among the collection were a number of paintings of the 16th and 17th centuries.

The collection was brought from Philadelphia in a motor truck and was heavily guarded on the pier until loaded aboard.

Exploring Difficult Country

One of the few unexplored regions in the world exists in the interior of New Guinea. The government of Papua has dispatched Officer Charles Karius on a 1,000 mile journey into the country, which whites have not visited, in an endeavor to discover the sources of the Fly river and Sepik river. It is believed to be a difficult country, including mountain ranges 12,000 feet high.

Alberta's Coal Supply

Alberta's visible coal supply is about 57 billion tons, Premier Brownlee declares. With the possible exception of China, Alberta has the greatest deposits in the world. The annual production from the province averages around 6,000,000 to 6,500,000 ton.

The Family Physician.—The good doctor is always worth his fee, but it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Saskatchewan Crops

Field crops in Saskatchewan in 1926 are preliminarily estimated by the Dominion Bureau of Statistics to have been worth \$325,135,000. The provincial wheat crop had a value of \$234,460,000, which is substantially more than half of the Dominion total.

CRIPPLED

MOTHERS—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulence, Wind Colic and Diarrhea; allaying Pectoral pain arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitation, always look for the signature of *F. Fletcher*. *Absolutely Herbs*. *No Ointments*. Physicians everywhere recommend it.

The Growth Of Motor Travel Responsible For Greater Interest Now Taken In National Parks

The 1926 summer season witnessed the establishment of new records in the number of persons visiting the Canadian National parks.

While this increase has been general, it has been most noticeable in the matter of motor tourists. Advances made in the automobile industry and in the construction of good roads have brought corresponding advances in the growth of motor travel, until this traffic has become of great importance in the development of the country.

Highways play an important part in drawing a large number of the tourists who visit Banff and Kootenay National parks by motor. Through the Kananaskis gateway, which is the eastern entrance to the Banff park and the Radium Hot Springs gateway, which is the western entrance to the Kootenay park, there passes each year the greater part of the motor traffic to the Canadian parks in the Rockies.

The volume of travel which poured into these two parks by motor is shown by the registration. At the Kananaskis gateway at the end of October of this year 19,069 motor cars had been registered as incoming; at Radium Hot Springs gateway, 6,593 entries were recorded, making a total of 24,662 cars entering the two parks. This number shows an increase of 5,780 over the number recorded in 1925.

Waterton Lakes National Park, in Southern Alberta on the International boundary, drew an amount of tourist travel far in excess of the previous year. The possibilities of this scenic wonderland are accentuated by the plans for extensive development announced in 1926.

The opening in June, 1926, of the motor road extension from Lake Louise to Field, brought Yoho National Park for the first time into prominence in the motor tourist world. The further extension of this road, which will enable motorists to proceed through Golden, is expected to be opened to travel early in 1927.

Jasper National Park, in the northern part of Alberta, had a most successful season, nearly 7,000 hotel registrations having been recorded prior to the end of October.

The National Buffalo Park at Wainwright, Alta., drew more visitors than in former years. A very keen interest is being taken in all countries, particularly in Canada and the United States, in the efforts of the Canadian Government to preserve the buffalo and also in the experiments that are being conducted at Buffalo Park in cross-breeding.

Wealth Of British Columbia

Basic Industries Will Have Output This Year Valued at More Than a Year Valued at More Than a Quarter of a Billion Dollars

British Columbia's basic industries will have an output this year valued at considerably more than a quarter of a billion dollars. This represents an enormous increase over the figure of five or ten years ago and indicates that industrial progress in Canada's Pacific coast province is maintaining an almost phenomenal stride. The estimate of the value of the year's production by industries is as follows:—Lumbering and related forest industries, \$80,000,000; mining, \$70,000,000; agriculture, \$70,000,000; fisheries, \$24,000,000; and pulp and paper, \$18,000,000. In ten years there has been an increase of 160 per cent in the lumber industry; manufacturing has advanced 211 per cent; the increase in the volume of lumber export has been 900 per cent; and farming has gained 75 per cent.

Final Crop Estimates

Final estimate of the Northwest Grain Dealers' Association places the wheat crop of the three Prairie Provinces at 371,316,000 bushels. Oats are put at 310,500,000; barley at 61,904,000; rye, 8,704,000, and flax 5,648,000.

Learning the Bible by heart is the self-imposed task of the 40,000 members of the Berean Band of Bible Learners. The movement is 21 years old and was originated in Acton, London.

Will Soon Rival Radio

Television Machine Makes Possible Views of Public Events

J. L. Baird's television machine has been demonstrated in London before the scientists of the Royal Institution. As previously announced, Baird's new invention, utilizing infrared rays, does away with the hot, objectionable searchlights formerly necessary to illuminate the subject; now the subject can sit in total darkness under the invisible infra-red rays, while every motion can be clearly seen by observers sitting in another room, also in darkness.

Although all movements are distinguishable, the images projected are not yet sufficiently clear to distinguish the features of the subject.

It is predicted television will soon be in popular use equal to that of the radio, with a television set in every home to receive, from central broadcasting stations, views of athletic contests and plays in conjunction with the present audible radio.

A Smart Two-piece Costume

Smartly youthful is the two-piece frock of flannel pictured here. The slip-on blouse opens under a plait at the centre front and plaited frilling falls gracefully at the left side. There are soft gathers at each shoulder, a shaped collar, set-in pockets, and the long sleeves are finished with cuffs. No. 1044 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2½ yards 36-inch material; ½ yard plaited frilling, 20 cents.

The two-piece skirt has an inverted plait in the centre front and at each side seam and is joined to a dart-fitted lining top. No. 1033 is in sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 36 requires 1½ yards 36-inch material and 1½ yards 36-inch lining. 20 cents each pattern.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

Model School Is Started

Children of Wembley Hill Learn Under Ideal Conditions

The last word in elementary schools—Wembley Hill Council School, High-lead, Wembley—was formally opened a few days ago by Sir Percy Jackson, chairman of the West Riding of Yorkshire Education Committee.

Lucky children of Wembley Hill. They go to a school in which Middlesex Education Committee have incorporated all the newest ideas in design, furniture, health and happiness.

There are spray baths where every child can have a bath once a week. The children undress in little cubicles ranged round the wall, and then step on to "duckboards" under the warm sprays. No child has a bath until the consent of the parents has been given.

An unusual feature of Wembley Hill, which is a mixed school of boys and girls, is that it is directed by a woman, Miss A. J. Hayes. A remarkable personality, she has been successful at other schools and it is clear that she is getting distinctive "atmosphere" at Wembley. The school is divided into "houses" on the public school model.

There is little discipline of the old fashioned kind. The word "punishment" is not known in the school. Miss A. C. Evans, head-mistress of the junior school, strongly objects to the word.

"What we aim at here," she says, is to get everything possible out of the child rather than to force everything possible into him. The mere giving of information is not education.

Paper From Straw

Wrapping Paper and Cardboard to be Manufactured at Edmonton Plant

Newsprint from straw will not be turned out by the Edmonton plant, now being installed, in the initial stages. Wrapping papers, cardboard and other coarse papers will be manufactured at the outset. As the business develops it is planned to establish plants in other western cities. The Alberta Government is interested in this matter and has fathered extensive experiments, conducted to a successful finish, by Dr. Pache Wrig, who was connected for a considerable time with the Dominion Government's paper-from-straw plant in the McGill University Grounds, Montreal.

Develop Reindeer Industry

Development of an extensive reindeer industry on the plains of the MacKenzie River basin is believed to be started by the formation of the Dominion Reindeer Co., Limited, a concern capitalized at \$500,000, with headquarters at Vancouver, according to the Morning Sun.

Prince Inspects C.P.R. School Car

Class of the Canadian Pacific school car in Northern Ontario. (Inset) His Royal Highness Prince George.

His Royal Highness Prince George

has, like his popular brother the Prince of Wales, proven that he is highly democratic; that his interests are diversified; that the education and welfare of the people of the Empire are matters of serious personal consideration. During his recent journey across Canada on the Canadian Pacific for Saint John where he sailed for England to spend Christmas with the Royal household, Prince George was informed that the train was nearing Devon, a remote settlement along the Canadian Pacific in northern Ontario, and that the new school car was operating there. His Royal Highness expressed a wish to visit the school car and so a special stop was arranged. The Royal traveller was greatly interested to learn that the school car travelled about from place to place bringing the opportunity of education to the children of many wilderness settlements. He spent many minutes inspecting the well-equipped car and listening to the class, comprised chiefly of foreign children, in a lesson review. It was a big event in the lives of these children to have a special visit from a Prince.

Envisions The Time When Western Grain Will Go To Europe By Northern Route

Alberta Oil Fields

Three Big Wells Now Placed on Producing Basis

Three big wells in the Turner Valley oil field near Calgary, are now on a producing basis. They are the Royalite No. 4 with 500 barrels of naphtha and 21,000,000 cubic feet of natural gas daily, the Vulcan with 125 to 140 barrels of naphtha and 6,000,000 to 10,000,000 cubic feet of gas and the Illinoian-Alberta with an estimated flow of 100 barrels of gasoline and 5,000,000 cubic feet of gas. The Illinoian-Alberta is installing a Smith separator and is piping the gasoline to the Imperial plant in the field. It is the newest well to "come in." Apparently, half a dozen other wells are close to the reputed production sand.

Saskatchewan Financial Status

Rural Municipality Collections Show a Good Increase

Saskatchewan's financial status is healthier than for many years back. In the rural municipalities tax collections show an increase of 5.5 per cent over those of the preceding year—fully two-thirds of the collectable taxes for the year being realized in cash. This is the highest percentage of tax collections recorded in rural municipalities during the past 14 years. Tax collections in cities, towns and villages are also distinctly prompt.

Saskatchewan Aerial Service

Government Geologists to Make Intensive Investigation of Northern Area

An aerial survey of Northern Saskatchewan is to be made, preliminary to an intensive investigation of the region by Government geologists. Speci-ally constructed seaplanes will be used and a three year's programme of mapping the country has been planned. The work is being undertaken as an aid to mineral development. Gasoline and general supply stations are being set up at convenient points.

The Marquis of Anglesey

Another name has been added to the already long list of titled Englishmen who have invested in land and in developing enterprises in Alberta. It is that of the Marquis of Anglesey, Charles Henry Alexander Paget. He has interested himself in the quest for oil in Turner Valley, near Calgary.

Hudson Bay harbors are the finest in the world and Hudson Strait is fraught with far less danger to navigation than the St. Lawrence from Montreal to the sea, said Capt. Robert A. Bartlett, famous Arctic explorer, in an interview in Chicago.

Captain Bartlett, who was a member of Peary's North Pole expedition, envisions a time when the grain, not only of Canada's prairie provinces, but of the Northwestern United States, will go to European countries by the northern outlet with a great assembly point in Saskatchewan, probably at Saskatoon.

For four or five months of the year Hudson Strait is the safest body of water to navigate in the world," he declared. "There is almost perpetual daylight; there are no fogs such as we encounter in the St. Lawrence."

"Why doesn't Canada wake up and finish the Hudson Bay route and provide an outlet for products that will save Canadian producers millions in rail and handling tolls? I am told it is because of political opposition in industrial Ontario and Quebec. I don't know any real seaman who would not be glad to sail Hudson Strait."

Captain Bartlett mentioned a plan, hitherto unannounced, for a dirigible service via the "top of the world," linking European, Canadian and American cities to the Orient with ships flying over the Arctic wastes.

With this purpose in mind he is preparing to take two Arctic surveys, by air and land. In this he expects to receive aid from the United States or Canadian governments. Selection of suitable landing fields, one or more of which would be in Western Canada, possibly at Regina, would be an important part of such a plan. "With such an arrangement in the Arctic and an agreement between Britain and the United States, whereby the British navy would police the Atlantic and the American fleet the Pacific, English-speaking races need never fear Oriental world domination," he said.

Captain Bartlett is a survivor of the days of wooden ships and "iron men." He is a Newfoundland by birth, descended from a long line of navigators and seal hunters. He was captain of the ill-fated Karuk, lost on a Canadian Polar expedition trip some years ago. The crushing of the Karuk in the ice and Bartlett's leadership in guiding the crew to safety in a long trek to settlements on the Bering Straits, are written in the pages of Canadian history.

Alberta Fur Production

Beaver Trapping is Now Permitted Under Certain Restrictions

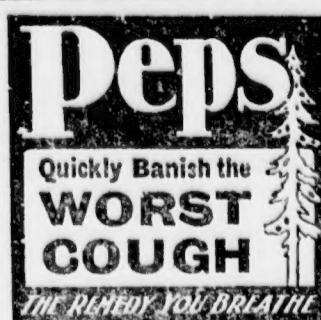

Two million dollars and something over represents the money value of Alberta's fur production for the fur year 1925-1926, according to Provincial statistics. The exact figures are \$2,122,780 as against \$2,020,174 for the year before. Beaver trapping will be permitted, under an order in council just issued, throughout the upper part of the province, north of the 55th parallel. Within these bounds the close season, which now holds for the whole province and for the whole year, will be opened for four months, January 1 to April 30.

The Size of Canada

How big is Canada? The answer to such a question probably would be the geographical dimensions. A better answer would be that Canada is big enough to give to every young person as great an opportunity as is available in any other country, granting that there are no appalling mistakes, of commission or omission, in government.

Silver foxes are now being shipped from Alberta farms to New York State, where they will start breeding pens. The fox industry has assumed very considerable proportions in Alberta during the last five years. An other novel industry is the raising of Karakul sheep (Persian lamb). Dr. O. H. Patrick of Calgary is pioneer in this branch and has a flock of several thousand Karakuls.

Some men think they are getting ahead if they keep from getting any worse off.

WORLD HAPPENINGS BRIEFLY TOLD

The French Chamber of Deputies, for the first time in history, elected a socialist as its president.

European museums have been hit hard by financial depression, according to Dr. George P. Merrill, of the department of geology of the United States National Museum. British museums are suffering the least, he said.

Two million dollars and something over represents the money value of Alberta's fur production for the year of 1925-26. The exact figures are \$2,422,789, against \$2,070,173 for the year before.

The Old Pension Bill will be reintroduced this session, Premier W. L. Mackenzie King told a delegation of railway brotherhoods' representatives which met the Premier and members of his cabinet recently, to recommend legislation.

Montreal regained its position during 1926 as North America's premier grain shipping port. New York ran a poor second almost sixty million bushels under Montreal's total figures of 134,549,831 bushels. Galveston, Tex., was third with 31,203,000.

The Greek Government is preparing a request to the League of Nations for assistance in obtaining a supplementary refugee loan in March, when the Government hopes to present a balanced budget and reduced military estimates.

STOMACH MISERY, GAS, INDIGESTION

"Pape's Diapepsin" Corrects Sour, Upset Stomachs at Once

"Pape's Diapepsin" is the quickest, surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages.

New Road Proposed

Requies that the British Columbia government press forward a road from the coast to connect with the highway now leading from Edmonton to Jasper National Park, was urged upon Hon. W. H. Sutherland, minister of public works, at Victoria, by K. A. Blatchford, M.P., for West Edmonton.

Said an Irish physician of a patient, "If he lives till morning he may pull through but if he doesn't, there is no hope for him."

CUTICURA

Helps
Business
Girls

To look their best. The regular use of Cuticura Soap, assisted by touches of Cuticura Ointment when required, keeps the complexion fresh and free from eruptions, the hair live and glossy and the hands soft and smooth. Cuticura Talcum is fragrant and refreshing, an ideal toilet powder.

Sample Box Free by Mail. Address: Canadian Soap Company, Ltd., Montreal. Price, 25¢. Postage 2¢ and 5¢. Telephone 256. Cuticura Shaving Stick 25¢.

W. N. U. 1064

Boys Growing Taller Says Chicago Doctor

Lead by Over Two Inches Boys of Fifty Years Ago

The American boy is two and a half inches taller than he was 50 years ago, Dr. Horace Bray of Chicago told the anthropological section of the American Association for the Advancement of Science at Philadelphia.

"In comparison with the figures published by Bowditch in Boston in 1877 and 1879," he said, "our modern American-born boys of American-born parents exceed in height by an average of slightly more than two and a half inches.

Dr. Gray's figures were worked out at the Institute for Juvenile Research at Chicago.

"This paper is concerned not with the cause," he said, "but with the phenomenon. It might be argued that the American boy of today is taller because he matures more quickly. But the lead of two and a half inches is maintained from six years of age right up to eighteen and therefore this suggestion fails.

"Differences in stature of children may be due to differences in ancestry or economic class. But presumably the more important cause for this apparent increasing tallness is due to progress in control of infantile diseases which damage growth or in knowledge of vitamins, sunlight and rickets, with consequent better nurture."

Her Kidney Trouble Quickly Disappeared

New Brunswick Lady Tells of Benefits Derived from Dodd's Kidney Pills

Miss S. Moorehouse Advises All Kidney Sufferers to Use Dodd's Kidney Pills.

Zealand Station, N.B. (Special)—"I saw your advertisement for Dodd's Kidney Pills," states Miss S. A. Moorehouse, who lives at this place. "I have suffered with kidney trouble for over a year, so I decided to give your Dodd's Kidney Pills a trial. I have used several boxes now and have found great relief in them. I can highly recommend Dodd's Kidney Pills and would not be without them."

The reason Dodd's Kidney Pills have come to occupy such a prominent place in the home is that so many ordinary everyday ills come from sick kidneys.

Rheumatism, urinary troubles, backaches and heart disease can be traced directly or indirectly to sick kidneys. To be assured of good health the kidneys must be kept in good working order all the time.

Trappers Secure Wolf Skins

Northern Alberta's wolf population is of large dimensions, no less than 56,000 skins having been shipped out of this province as furs in the last year. They form substantial source of revenue to trappers in the wilds.

Don't Submit to Asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

Powerful searchlights, sunk below ground level in a concrete trough, with flat glass cover, have been installed at London's air port, so that airplanes can land directly on the lights if necessary.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy — Mother Graves' Worm Exterminator.

The reason why Empire grievances are so readily dispelled at Imperial Conferences is that so few real grievances exist.

H. N. Simpson, who has been appointed superintendent of the Canadian Pacific Express Company at Winnipeg with jurisdiction over Manitoba and Saskatchewan, and Ontario, west of Port Arthur. Mr. Simpson succeeds W. M. Gordon, now superintendent at Vancouver.

Pain In The Muscles, Stiffness In Joints,

Quickly Subdued By Nerviline

Those who have tested out numerous cures will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary city preparation, it has come to be known as King over all Pain. For rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 25 cent bottle from your dealer to-day.

SUNDAY SCHOOL LESSON

JANUARY 23

PRAYER IN THE CHRISTIAN LIFE

Golden Text: Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you. —Matthew 7:7.

Lesson: Mark 1:35; 14:32-36; Matt. 6:9-13.

Devotional Reading: Psalm 63:1-8.

Explanations and Comments

I. The Habit of Prayer, Mark 1:35: "To gain strength for His days of strenuous work Jesus was in the habit of going off early in the morning to a quiet spot—a deserted place, where there were no people—and pray. He began the day with God. Alone in communion with His Father his strength was renewed and his problems were clarified, for there he learned his Father's will. Do we wonder that He should need to pray? Remember the tendency of life, the tendency of even the best life, to run down. Nobody knew this as well as Jesus did. See what he said about it. He did not pray just to set an example. He lived the life of prayer because for Him it was worth living." —(William Fraser McDowell.)

"Much prayer means much power; little prayer means little power; no prayer means no power." —(J. Stuart Holden.)

II. The Spirit in Which all True Prayer Must be Offered, 14:32-36: "When Jesus and His eleven disciples reached the Garden of Gethsemane he said to eight of them, 'Sit ye here while I pray,' and then went farther on into the garden with Peter, James and John who were to watch with Him. It was a bitter hour. The end of His ministry was at hand. The traitor was coming to betray him to his enemies. He began to be greatly amazed and sore troubled. How truly human was our divine Saviour!"

World's Largest Cities

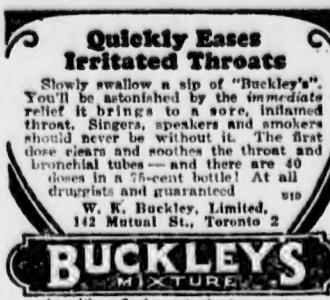

Greater London Leads With Population of 7,476,168

Greater London, England, is the largest city in the world with a population (census of 1921) of 7,476,168. The second city in size is Greater New York, which, according to census of 1925, has a population of 6,163,384.

The largest city in continental Europe is Berlin, capital of Germany, which, according to the census of 1925, has a population of 4,000,000. Berlin is the third largest city in the world, and the fourth is Paris, the capital of France. The largest city in the East is Tokyo, Japan. Before the recent earthquake it had a population of about 2,300,000.

Paradoxical though it may seem, a wedding ceremony isn't considered a success unless there is a hitch in it somewhere.

Minard's Liniment,—ever reliable.

Many Foreigners In Paris

Every Tenth Person Living in French City is Alien

One of every ten persons residing in the Paris district is a foreigner, according to the latest census returns of the Minister of the Interior for 1926, just published. The exact figure of the Parisian population is not given in the census, it being made according to departments, so that the estimate is an approximate one. However, it is within a fraction of the truth.

The returns give the total inhabitants of the Seine department as 4,628,637; that of the Seine-et-Oise department 1,137,525.

The whole of the former department is counted within Paris and a large part of the latter. The number of foreigners residing in the Seine is 243,784; Seine-et-Oise, 83,910.

The foreign population of the Alpes-Maritimes department which comprises the Riviera, is still more dense, there being 149,648 foreigners out of a total population of 435,253. This figure, of course, does not include the floating tourist population, only genuine residents. The total for the whole of France is 40,743,851 inhabitants. Of these 2,498,234 are foreigners.

"CASCARETS" FOR HEADACHE, COLDS, CONSTIPATION

To-night! Clean your bowels and stop headache, colds, sour stomach

Get a 10-cent box.

Take a Cascaret to-night to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

Cannot Have Tennis Court

Even the Prince of Wales is checkmated now and then by old laws and customs. The Heir Apparent, much to his surprise, has just learned that he cannot have the tennis court in the gardens of Marlborough House, which is to be his London home, because a clause in the original title deeds expressly forbids disturbances of the lawns in any way.

SO SHORT OF BREATH SHE COULD HARDLY DO HER HOUSEWORK

Mrs. Nelson Moore, Milford, Ont., writes:—"I had heart and nerve trouble, and became so short of breath I could hardly do my housework, and was so nervous every little sound I heard felt like a shock to me."

A friend of mine recommended

so highly I got a box of them and they did me so much good I got the second box, and now I am feeling like a different woman."

Heart and Nerve Pills are 50¢ a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Enjoyed Airplane Trip

Wife of British Air Minister Delighted
With Journey to India

Lady Hoare, wife of the air minister, thoroughly enjoyed her aerial trip to India with her husband. Speaking to The Daily Mail correspondent at Karachi, where the plane arrived on Indian territory, she said:

"I never experienced such a comfortable journey either by train, sea or car, and I thoroughly enjoyed every moment. When I wasn't watching the scenery beneath I spent most of my time reading or in writing letters."

"My single suitcase proved ample baggage. Indeed, I could have done with less. One can powder one's nose in an aeroplane as easily as in a dressing room."

Busy Year for Vancouver

Vancouver's programme of improvement to public utilities in 1927 will be an extensive one involving more than \$2,000,000; for so the civic electorate has voted.

The Baby's Cold

to meet her, a glad smile in his face. After two hands reached out to him, impulsively. Awkwardly he took them both, and would have dropped them but they held onto his.

"We knew you had come," Yvonne said, "and so I am to be the first to tell you what wonderful things you have been doing and how happy, I—we are! You are quite the same John Wilmore we left in New York."

The "we" was emphasized. John noted that it confused him. And the woman was still holding his hands.

"I did hope," he said, "that you wouldn't say I looked just the same. Every acquaintance I meet says that to me. I feel as if I was derelict in something; as if I ought to look different than I do."

"Now that's a very appropriate speech," Yvonne assured him. "It strikes home, because, frankly, I've been wondering since I read of your arrival, just how you'd look. Being famous does change some people, you know."

He tumbled a little with his released hands. Yvonne sensed the question at his lips. "She is over there," she said, "playing. That crowd is her's. She came in an hour ago quite normal but the Red and Black always sweeps her out of herself. She's playing the maximum treble, and winning. We mustn't disturb her now."

They walked across the gallery and up to the edge of the crowd that pressed against the girl in the gold chair who still played, win or lose three times the maximum, and whose plays still troubled the chef de partie because she continued to win. Brandon came out of the pack and greeted John affably.

CHAPTER XXV.—Continued

But just now, with Prince Michael's sudden surrender to her creating a new underling, and with the coming of John to irritate him, she was restless beneath Kenilworth's intense appraisals. And she didn't want to be cross-examined about John. She hoped she was concealing from Roddy the constant searching of her eyes along the vistas of the Terrace and into the Casino Square which fronts the crowded tables of the Cafe de Paris, for a familiar figure.

In the atrium, the red and gold hung foyer of the Casino, Yvonne and Michael were awaiting them.

"The rooms are crowded," Yvonne observed. "I've decided to hunt a place at the roulette tables."

Around each of the tables were crowds four or five deep the late afternoon company of curious visitors to the world's gayest shrine of sin, tourists, cocottes seeking monsieurs for the evening, and old women hanging on holding chairs with the hope of selling them to afternoon habitués. All of these last, the old women of the gambling rooms, knew each one of the party that crossed the wide polished floor of the splendidly decorated rooms and glanced about for places. Croupiers, too, gave little signs to each other at the entrance of the sleek Yvonne and the lovely young American. Both had been the heroines

of sensational plays that had become Casino legends. Yvonne dropped into a chair Michael bought from an old hag for a fifty franc note. Kenilworth guided Joanna to another and won a currency from the ancient dame who surrendered it by the size of his tip. Joanna plunged immediately into her play, Kenilworth standing close behind her.

"En plein," she called again, and swept her 15,000 francs—\$5,000—onto the table.

When Joanna gambled she lost herself entirely. The color came into her cheeks as the rouge et noir, the red and black, divided its favors.

Others played with gold louis, or ten franc notes, counting their plagues nervously after each turn of the wheel. Joanna tossed thousand franc notes onto her color; numbers or columns with feverish excitement. When she lost, and the croupier's wooden rake drew her stake away from her, she made pretty grimaces. When she won, and the rake pushed toward her fingers its pile of gold and silver and notes, she clasped her hands and turned to smile up at the man who stood over her. On this afternoon she made her first playa listlessly, as if her enthusiasm had been left with the hats of the men in the atrium; but with one or two wins she had forgotten everything, seemingly, but the eye of the croupiers and the spinning of the wheel.

Brandon, strolling now edged against Brandon, suddenly felt his hand on his arm. When she looked up at him he signalled, with a look, a presence in the room. She turned and glanced about among the marble pillars along the corridors. She saw a figure already in dinner clothes standing idly between the columns where visitors tottered to take in the always thrilling scene about the roulette tables. The boy, for he was hardly more than a boy although he had the air of one who had grown big in the midst of something that counted, appeared to be undetermined whether to pass on, and out onto the Terrace, or turn into the Salle de Roulette and investigate the reason for the crowd that hovered, with tense faces, about the middle table. Yvonne, when she had took in every detail of the figure in dinner clothes, glanced at Brandon. He nodded at her quietly. She threaded her way out of the crush and crossed the chamber.

The young man between the columns had decided, evidently, to pass on. But as he was turning into the corridor his eyes caught the woman who was approaching him. He moved

Little Helps For This Week

My times are in Thy hand. Psalm
xxxi. 15.

I need not care
If days to come be dark or fair,
If the sweet summer brings de-
light,
Or bitter winter chills the air.

How this is planned,
Or that, I may not understand;
I am content, my God, to know
That all my times are in Thy hand,

—Mary Bradley.

Do your best loyally and cheer-
fully, and suffer yourself to feel no
anxiety or fear. Your times are in
God's hands. He has assigned you your
place; He will direct your paths; He
will accept your efforts if they be
faithful; He will bless your aims if
they be for your soul's good.

—Frederic W. Farrar.

The Object Of Colleges

Important Thing is to Know How to
Get Along With Your Fellow
Human Beings

The object of colleges is to educate. The primary object has generally been said to be to educate in history and Latin and Greek and law and whatnot. But we do not agree with that.

We think it is the secondary purpose of a university education. We do not believe that the education of the mind is quite so important as the education of the man, if you get what we mean. We believe it vastly important to any of you to know that you should treat your wash-woman with kindness and courtesy than it is to know the binomial theorem—whatever that is. After all, the most important thing you can know in life is how to get along with your fellow human beings and that takes in a lot of territory. You may know a Greek root from a horse-radish root, but if you deal kindly and considerately with whom you come in contact, your life will be a success. College should teach you this.

College should teach you this.

—American Boy Magazine.

For Colds—Minard's Liniment.

Owns Several Hotels

Mrs. Rosa Lewis, who at the age of 13, 68 years ago, had her first job as a "slavey" in the Cavendish Hotel, in London, arrived recently at New York in the Imperial suite of the Berengaria. She now owns the hotel in which she worked, besides many other landmarks throughout England. The Cavendish, in London, appeals particularly to college men, attracted by Mrs. Lewis' famous cuisine and her motherly interest in them.

Diamonds in the world have a total value of \$5,000,000,000 according to the recent estimate of a gem expert.

Cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—or of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood poisoning and death resulted. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 60c. box.

Zam-Buk

Only Fat Men Eligible

Five massive men with an aggregate weight of more than 2,000 pounds, form the backbone, as it were, of the new Fat Men's Club of Berlin. The formation of this organization has been one of the big events of the winter social season.

No one weighing less than 350 pounds is eligible to membership. The weightiest member is Karl Sperling, 331 pounds.

KEEP LITTLE ONES
WELL IN WINTER

By Regulating the Stomach and
Bowels With Baby's Own
Tablets

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and through their use the baby will be able to get over the winter season in perfect safety.

In using Baby's Own Tablets, the mother has an absolute guarantee that she is giving her precious little ones something that is absolutely safe and something that cannot possibly do harm to even the newborn babe as the Tablets contain not one particle of opiates or other dangerous drug.

They are sold by medicine dealers or at 25 cents a box, by mail from The Dr. Williams' Medicine Co., Brockville, Ont.

Saskatchewan's Growth

According to an official announcement of the Department of Municipal Affairs of Saskatchewan, there are in this province at the present time 7 cities, 80 towns, 367 villages, 301 rural municipalities and 4,028 school districts.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

"Hypocrisy is trying to make you self believe that you don't think you are better than you know you are."

Matrimony has spoiled many friendships.

Do You Cough?

Photo by Kennedy

Guelph, Ont.—"I caught a severe cold and could not seem to get rid of it. It just clung to me and finally settled in my bronchial tubes, causing me a lot of trouble. The cough would be more severe at night than during the day, causing sleeplessness. I finally decided I would try Dr. Pierce's Golden Medical Discovery and by the time I had taken one bottle I was entirely relieved of the bronchial trouble—my cough disappeared and I had no trouble with a cough since. I do not think a person can take anything better for bronchial weakness or deep-seated coughs than the 'Golden Medical Discovery'."—Miss Mary Duggan, 170 Ontario St.

on Sunday, Jan. 30, a daughter.

Red Trail Items

Emil and Theodore Bockholdt
attended the wedding of their cou-
sin, Albert Egle, at Woodrow,
Sask., on Sunday last.

A number of friends and neigh-
bors of John Leiske gathered at his
home on Sunday evening to listen
to the fine radio program broadcas-
ted from Lincoln, Neb.

Serious consideration to the con-
servation of big and small game
in the United States is being given
by members of game and fish pro-
tective organizations in various
states who are holding the thirteenth
National Game Conference at the
Hotel Pennsylvania, in New York
city, December 6th and 7th.

Quebec.—Estimates of the cutting
of timber for the season 1926-27
which runs from the latter part of
August to the end of April, as com-
piled by experts here, are that the
cut will be from 15 to 20 per cent.
over last year's. In other words
this season's cut will run to about
2,000,000,000 feet of timber.

Discharging over 1,500 third class
passengers at Quebec, recently, the
S.S. "Montcalm" and "Empress of
Scotland" brought the immigration
season on the St. Lawrence for the
Canadian Pacific Steamships to a
close. In the 74 Summer sailings,
vessels of the fleet brought 40,000
immigrants to Canada, compared
with 28,841 from 80 sailings in 1925
and 39,479 from 93 sailings in 1924.
The average carrying per vessel in
1926 was 549, in 1925, 360, and in
1924, 424.

ANOTHER BOOKLET for FARMERS

In pursuance of its policy of friendly co-opera-
tion with the farming interests of this
country, the Bank of Montreal is now
issuing a new text book for farmers, entitled
"Sheep for Mutton, Wool and Money." The
booklet is a practical guide to the breeding and
feeding of sheep, and its value is greatly increased
by photographs illustrating every point that
is made. A copy may be obtained, without
charge, on application at our nearest Branch.

Previous booklets distributed by the Bank are—

"Diversified Farming"
"The Cow, the Mother of Prosperity"
"Poultry for the Farm and Home"
"Hogs for Pork and Profit"

The Bank has distributed tens of thousands of
these booklets throughout Canada, and nu-
merous farmers have expressed their apprecia-
tion to our local Managers.
